Dear Jeff

I'm writing to express my appreciation of the fantastic job you've done on the outside of our house. It looks wonderful, thank you so much. The renewed condition of the outside walls has truly exceeded my expectations.

From the word go I knew our house was in the hands of a professional – you set about your work with great efficiency, and good humour too! It was also great to know that all this work was environmentally certified. Thank you also for identifying areas I hadn't thought needed doing – giving the water tanks a quick wash was very kind of you, likewise the letter box, and the solar panels are performing much better after their first ever clean.

Thanks again, and looking forward to the next time

Yours sincerely

Fiona Hogarth
